LCD TV ASSOCIATION CHAIRMAN BECOMES NEWEST MEMBER OF FUSION OPTIX, INC.

Leading Developer of Components and Solutions for Flat Panel Displays and Solid State Lighting welcomes Bruce Berkoff to the Advisory Board

Cambridge, MA – May 30, 2007 – Fusion Optix announced late last week that Bruce Berkoff, Chairman and Founder of the LCD TV Association, will join the team as the newest member of the Advisory Board. Berkoff's experience in the display industry and keen understanding of the LCD TV market in particular will be a solid addition to the distinguished Board.

Berkoff is the founding Chairman of the LCD TV Association based in Beaverton, Oregon, USA. The association is a nonprofit organization designed to "inform, promote, improve, and connect" the many facets of the global LCD TV industry.

Prior to this, Berkoff led Enuclia Semiconductor from late 2005, a top-tier VC funded fables semiconductor startup in the HDTV video processor space. Berkoff was CEO and later Chairman of the BOD for Enuclia, joining them from LG.Philips LCD. Before that, Berkoff served as general manager of Philips Flat Display Systems' software and electronics business unit in Silicon Valley. He has also held executive management positions at several technology companies, including UMAX Computer Corporation, Radius, and SuperMac Technologies.

Mr. Berkoff holds undergraduate and graduate degrees in physics and biophysics from Princeton and the University of California, Berkeley, respectively. He also has display related patents both granted and pending in the U.S. and China.

Terry Yeo, President and CEO of Fusion Optix, sees Berkoff as a welcome addition to the team, particularly due to his previous Board experience and extensive view of the display industry. Yeo commented, "I respect Bruce's efforts in forming a trade association that will aid the development of the LCD TV industry, and I look forward to working closely with him and utilizing his expertise in the industry."

About Fusion Optix

Fusion Optix's world-class team is pioneering innovative high performance custom solutions, products, and technologies for global optical markets, such as displays and LED lighting. Our approach to focus on leading edge optical design and fundamental materials science, as well as advanced manufacturing, has resulted in a unique highly customizable product platform and system solutions that leverage this platform. Fusion Optix is privately held and funded by major international investment firms. We have established a dedicated global customer support and supply chain infrastructure to respond to the demands of the world's leading companies.

This press release contains forward-looking statements, including, without limitation, statements concerning our possible or assumed future results of operations. These statements are preceded by, followed by or include the words "believes," "could," "expects," "intends" "anticipates," or similar expressions. Our actual results could differ materially from those anticipated in the forward-looking statements for many reasons including the general risks and uncertainties inherent in the current business climate and within our industry as a whole. Although we believe the expectations reflected in the forward-looking statements are reasonable, they relate only to events as of the date on which the statements are made, and our future results, levels of activity, performance or achievements may not meet these expectations. We do not intend to update any of the forward-looking statements after the date of this document to conform these statements to actual results or to changes in our expectations, except as required by law.
