# LIGHTING INDUSTRY VETERAN JOINS FUSION OPTIX BOARD OF DIRECTORS

## Leading developer of Optical Components and Solutions for Energy Efficient Lighting and Flat Panel Displays welcomes S. Donald McCullough to its Board of Directors

**Cambridge, MA – October 8, 2008** – Fusion Optix announces the recent appointment S. Donald McCullough to the Board of Directors. In an effort to bring more industry-specific experience to the Board, Fusion Optix recruited McCullough to take advantage of his deep knowledge of the lighting industry in which Fusion Optix is playing an increasingly large part.

A lighting industry veteran, McCullough spent over 25 years at GTE Sylvania in a variety of roles. He served as VP/CFO of the worldwide Lighting Business Unit, and subsequently was VP/GM of the GTE Sylvania Automotive Lighting Business. He also served as the VP/GM of GTE Sylvania Lighting Europe based in Geneva, Switzerland. After leaving Sylvania, McCullough became the President and COO of Nasdaq-traded Signature Brands and has since offered his expertise to companies as an independent consultant. McCullough holds a BS in Business Administration from John Carroll University and an MBA from State University of New York at Buffalo. He has extensive experience serving on the board of publicly traded and privately held companies, as well as non-profit organizations.

Dr. Terry Yeo, President and CEO of Fusion Optix, looks forward to working with McCullough. Yeo commented, "Donald's knowledge of the global lighting industry will have a significant impact on the Board. I feel we can immediately leverage his experience in both the commercial and operational aspects of our business."

### About Fusion Optix

Fusion Optix's world-class team is pioneering innovative high performance custom solutions, products, and technologies for global optical markets, such as displays and LED lighting. Our approach to focus on leading edge optical design and fundamental materials science, as well as advanced manufacturing, has resulted in a unique highly customizable product platform and system solutions that leverage this platform. Fusion Optix is privately held and funded by major international investment firms. We have established a dedicated global customer support and supply chain infrastructure to respond to the demands of the world's leading companies.

This press release contains forward-looking statements, including, without limitation, statements concerning our possible or assumed future results of operations. These statements are preceded by, followed by or include the words "believes," "could," "expects," "intends" "anticipates," or similar expressions. Our actual results could differ materially from those anticipated in the forward-looking statements for many reasons including the general risks and uncertainties inherent in the current business climate and within our industry as a whole. Although we believe the expectations reflected in the forward-looking statements are reasonable, they relate only to events as of the date on which the statements are made, and our future results, levels of activity, performance or achievements may not meet these expectations. We do not intend to update any of the forward-looking statements after the date of this document to conform these statements to actual results or to changes in our expectations, except as required by law.
