Fusion Optix, Inc. Extends Support Capabilities In Silicon Valley

Leading Developer of Components and Solutions for Flat Panel Displays and Solid State Lighting moves West Coast office to downtown San Jose

Cambridge, MA – January 17, 2007 – In an effort to better serve the Silicon Valley community, Fusion Optix has moved its West coast office to downtown San Jose. San Jose is a more central location in the Valley and home to many of the world's leading display and lighting companies. As a new member of the U.S. Display Consortium (USDC), Fusion Optix is interested in furthering its presence in the Bay Area to get more involved in industry events. Accessibility is also a major factor, as much of Fusion Optix's business takes place on the West coast.

As Fusion Optix continues to grow, the need for established offices across the globe becomes a more pressing issue. The launch of their Taiwan office (August 2006) brought the company to a third continent and has been a successful venture to date. The Cambridge, UK office continues to serve Europe.

"We are very excited to have more of a presence in Silicon Valley, and San Jose is a great city to start building that presence. With better access to key industry partners and events, Fusion Optix will be better able to deliver on its promise of innovation" Terry Yeo, Founder and CEO, commented. The office will open February 1, 2007.

About Fusion Optix

Fusion Optix's world-class team is pioneering innovative high performance custom solutions, products, and technologies for global optical markets, such as displays and LED lighting. Our approach to focus on leading edge optical design and fundamental materials science, as well as advanced manufacturing technologies, has resulted in a unique highly customizable product platform and system solutions that leverage this platform. Fusion Optix is privately held and funded by major international investment firms. We have established a dedicated global customer support and supply chain infrastructure to respond to the demands of the world's leading companies.

This press release contains forward-looking statements, including, without limitation, statements concerning our possible or assumed future results of operations. These statements are preceded by, followed by or include the words "believes," "could," "expects," "intends" "anticipates," or similar expressions. Our actual results could differ materially from those anticipated in the forward-looking statements for many reasons including the general risks and uncertainties inherent in the current business climate and within our industry as a whole. Although we believe the expectations reflected in the forward-looking statements are reasonable, they relate only to events as of the date on which the statements are made, and our future results, levels of activity, performance or achievements may not meet these expectations. We do not intend to update any of the forward-looking statements after the date of this document to conform these statements to actual results or to changes in our expectations, except as required by law.
