Leading Developer of Components and Solutions for Flat Panel Displays and LED Lighting speaks in Flat Panel Display Equipment and Materials Session

Cambridge, MA- February 27, 2007 – Fusion Optix, Inc. Announced today that CEO, Terry Yeo will be presenting at the US FPD Conference alongside representatives from other leading display companies and market analysis firms, such as 3M, DisplaySearch and Corning Display Technologies. Fusion Optix is also sponsoring the event, as part of its push to bring innovation to the display industry.

On Wednesday, March 7, 2007 at 1:00pm, Dr. Yeo will be part of a panel discussing FPD Equipment and Materials at the Hilton La Jolla Torrey Pines Hotel in La Jolla, California. The session will focus on the enormous growth of the materials market in FPD technology. Dr. Yeo will talk about Fusion Optix's solutions to the highly demanding technical requirements that exist today amid equally demanding price competition.

Fusion Optix has made LED backlighting for flat panel displays one of its main priorities because the industry is in need of more efficient designs. Utilizing high brightness, low power LEDs, along with a variety of proprietary light management films, Fusion Optix designs achieve backlight enhancement that is much needed in the industry. Because of the company's focus and supply chain expertise, Dr. Yeo will be an insightful member of the panel. He commented, "To present alongside such respected display companies is exciting for Fusion Optix, and I look forward to discussing business strategy in an industry that is constantly moving forward."

About Fusion Optix

Fusion Optix's world-class team is pioneering innovative high performance custom solutions, products, and technologies for global optical markets, such as displays and LED lighting. Our approach to focus on leading edge optical design and fundamental materials science, as well as advanced manufacturing, has resulted in a unique highly customizable product platform and system solutions that leverage this platform. Fusion Optix is privately held and funded by major international investment firms. We have established a dedicated global customer support and supply chain infrastructure to respond to the demands of the world's leading companies.

This press release contains forward-looking statements, including, without limitation, statements concerning our possible or assumed future results of operations. These statements are preceded by, followed by or include the words "believes," "could," "expects," "intends" "anticipates," or similar expressions. Our actual results could differ materially from those anticipated in the forward-looking statements for many reasons including the general risks and uncertainties inherent in the current business climate and within our industry as a whole. Although we believe the expectations reflected in the forward-looking statements are reasonable, they relate only to events as of the date on which the statements are made, and our future results, levels of activity, performance or achievements may not meet these expectations. We do not intend to update any of the forward-looking statements after the date of this document to conform these statements to actual results or to changes in our expectations, except as required by law.
